

CEESA Consortium Meeting 2 – 4 June 2009, Hotel Haraldskær, Vejle

Tuesday 2 June

- 14:00** **Arrival and coffee**
- 14:15** **Short Introduction** (Henrik Lund)
- 14:30 – 18:30** **Biomass and resource discussion**
Biomass and waste resources (Niclas Scott Bentsen, WP5)
Prioritising carbon in the fossil-free society – global perspective and national implications (Henrik Wenzel, WP5)
Geothermal energy (Poul Østergaard, WP3)
Transport status and new reference (Brian Vad Mathiesen, WP2 and WP1)
Biofuel conversion technologies (Niclas Scott Bentsen, WP2)
Modelling of transport (Erik Schaltz, WP2)
- 19:00** **Dinner**

Wednesday 3 June

- 9:00 – 12:00** **District heating and scenarios**
Heat Plan Denmark (Henrik Lund)
District heating public regulation (Frede Hvelplund)
Status on scenarios based on IDA's Future Climate Plan 2050 (Brian Vad Mathiesen)
- 12:00 – 13:00** **Lunch**
- 13:00 – 18:00** **WPs and scenario relations**
WP4 (Public regulation): Can the scenarios be implemented? What kind of Public Regulation do we need? Feed-back and corrections/changes to the proposed scenarios (Poul Erik Morthorst)
- WP3 (electric grid): Can the 100% be implemented from an electro technical point of view? What problems will arise? How can they be solved? Feed-back and corrections/changes to the proposed scenarios (Poul Østergaard)
- WP5 (LCA): How will LCA form part of the analyses? What does it mean to the scenarios? Feed-back and corrections/changes to the proposed scenarios (Thomas Astrup)
- Conclusions and agreements on coming work
- 19:00** **Dinner**

Thursday 4 June

- 9:00 – 12:00** **Biomass and resource discussion**
Introduction (Niels I. Meyer)
Group meeting in each WP: Discussions of inputs from the two first days. What do the discussions mean to our WP. What will we work on until the next meeting?
Plenum: Presentation of expected content of main report and WP reports
- 12:00 – 13:00** **Lunch and departure**
