

## Minutes from CEESA WP2 Meeting

**Date:** 11 January 2008  
**Place:** Phone-meeting

### **Present:**

Henrik Lund, AAU  
Brian Vad Mathiesen, AAU  
Niclas Scott Bentsen, KU-KVL (Tlf: 35 33 17 14)

### **Discussion and decisions**

Due to illness Mads were not present. And for the same reason Brian and Mads had to postpone the work on scenarios.

Brian presented a paper on statistics related to the division into “short-distance” and “long-distance” transportation demands.

Henrik informed of a meeting with the AAU transportation research group, who have agreed to co-operate with the project and make comments among others on the data and design of transportation scenarios. Brian will sent them some of the recent papers.

It was decided

- to change the date for the next meeting at AAU to 11 March,
- to take up the work of Mads and Brian on a first draft on the “transportation-technology-system” for to be presented and discussed at the next WP2-meeting when Mads are ready again.

Niclas will proceed on the design of “overall biomass for energy” scenarios.

Next phone status meeting: ... to be decided ...

Date reserved for meeting at AAU: Thursday 11 March at AAU.
